

OISIN KANE

PROFESSIONAL SUMMARY

I'm currently a Junior Frontend Developer with 4 years experience. I am keen to take on new projects in order to develop my current skill set. I am also willing to undertake further training with the goal to develop into a Senior Developer. I taught myself coding during lockdown, specifically in HTML and CSS. I am driven to work my way up in the web development industry.

I embarked on an apprenticeship programme with Global Horizon Skills in 2021. The apprenticeship provided me with formal qualifications but also exposed me to real world scenarios, ensuring a well-rounded development of my technical abilities.

Working with the team has been a significant milestone in my career. I have collaborated with seasoned professionals, learned from their expertise and contributed my own ideas to projects that make a difference.

- More about me -

I'm a boxer for Cookstown Boxing Club and very much enjoy the team ethos that being part of a club entails. I am also running a marathon in May and have set a goal to raise money for a charity. I mix in well with other people and can work well both independently and as part of a team.

WORK HISTORY

Junior Frontend Developer, 09/2020 to Current

Reflex Studios - Cookstown , Tyrone

- I built Websites for the following clients - Nature Friendly Farming Network, Marley Hire Equipment, The Royal Hotel, GoKonnnect and Peace Heroines.
 - Built & developed websites from initial design on Figma, using HTML, CSS and Javascript.
